REGIS Staff have recently setup an ArcMap project with pre-loaded layers that will allow a user to quickly open and display the 2010 Census Block Total Population data in each government unit. See the steps below to open and use this project.

•2010 Census ArcMap Project:

To open this project you must first login into REGIS and launch the project from the application pool. Once in the application pool, click on the Census Icon as shown.

A customized ArcMap project (*mxid.file*) will open just like the graphic shown below.

To display the data for a particular community check the box next to the government unit you are interested in. The map will display the total population count for each census block. In the example on the next page Ada Township is being displayed.

Please contact the REGIS Help Desk at 616-776-7744 if you have any questions regarding this project.
