POLICY COMMITTEE MEETING

Wednesday, May 18, 2022

9:30 AM

The Rapid Central Station Conference Room
250 Grandville Ave SW
Grand Rapids, MI 49504

AGENDA

I. ROLL CALL AND INTRODUCTIONS

- II. APPROVAL OF MINUTES—ACTION: Policy Committee minutes dated March 16, 2022.
Please refer to Item II: Attachment A**

III. OPPORTUNITY FOR PUBLIC COMMENT (GENERAL)

- IV. TIP AMENDMENTS—ACTION: On behalf of Georgetown Seniors, Hope Network, The Rapid, MDOT, Grand Rapids, and Kent County amendments/modifications to the FY2020-2023 TIP are being requested.
Please refer to Item IV: Attachment A**

V. OPPORTUNITY FOR PUBLIC COMMENT (FY2023-2026 TIP)

- VI. APPROVAL OF THE DRAFT FY2023-2026 TIP—ACTION: The Committee will be asked to recommend approval of the Draft FY2023-2026 TIP.
Please refer to Item VI: Attachment A**

- VII. PROPOSED FY2023 UNIFIED PLANNING WORK PROGRAM (UPWP) ACTIVITIES AND BUDGET—ACTION: Staff is requesting the Committee's review and recommendation for approval for the proposed FY2023 UPWP activities and budget before it is presented to the Executive Committee and GVMC Board for final approval.
Please refer to Item VII: Attachment A**

II. APPROVAL OF MINUTES

Referring to Item II: Attachments A and B, Naramore entertained the following motion:

MOTION by LaGrand, SUPPORT by Wisselink, to approve the November 17, 2021 Policy Committee minutes and the January 19, 2022 combined Technical and Policy Committee minutes. MOTION CARRIED UNANIMOUSLY.

III. OPPORTUNITY FOR PUBLIC COMMENT

No public comments.

IV. TIP AMENDMENTS/MODIFICATIONS

Referring to Item IV: Attachment A, Joseph introduced the amendments to the FY2020-2023 TIP that are described in the agenda packet. They are as follows:

- The City of Grand Rapids is requesting one amendment to the TIP. Joseph noted that the total cost on the City of Grand Rapids’ Cesar E. Chavez Ave. reconstruction project came in lower than expected by over 25%, which triggered an amendment. Additionally, TPSG recommended adding \$300,000 to the federal portion of the Robinson Rd project.
- Since the last meeting, an urgent budget change was processed through the regional policy in place that allows for the Technical and Policy Committee chairs and vice-chairs to approve amendments in addition to a week long website posting for public review. The cost change did not impact the federal funding amount.
- Joseph noted that the S/TIP Exempt list is included in the agenda packet, covering changes to projects that are not required to be in the TIP.

- MDOT is requesting amendments/modifications to the TIP, including the addition of five phases from the Infrastructure, Investment, and Jobs Act (IIJA) funding, and two abandoned phases that are being mostly absorbed into other projects. T. Kent reported on these proposed amendments, stating that the phases being added correspond with two US-131 bridge projects. The first, a bridge rehabilitation project, will take place on two bridges along US-131 NB / I-96 WB, one over US-131 SB and the other over West River Dr. The second bridge project being added is on Martin Luther King Jr. (Franklin St) over US-131 and includes a partial bridge replacement.

MOTION by Schweitzer, SUPPORT by LaGrand to approve the TIP amendments requested by MDOT and the City of Grand Rapids. MOTION CARRIED UNANIMOUSLY.

V. ADJUSTMENTS TO DRAFT PROGRAM OF PROJECTS FOR TIP 2023-2026

Referring to Item V: Attachment A, Joseph presented the TPSG and Technical Committee recommendations for the updated draft program of projects for the FY2023-2026 TIP. Joseph noted that two TPSG meetings were held (March 2 and March 8) to discuss the allocation of this funding. Most STP funding sources were increased by 6-7 percent, which was absorbed into currently programmed, overprogrammed projects. NHPP funding was converted to STP-Flex-TMA funding which can be used throughout the entire MPO area rather than only Kent County. This funding source was also increased. CMAQ funding was again reduced. However, this funding loss can be supplemented by Carbon Reduction Program (CRP) funding. Everything that was eligible for CMAQ funding, aside from capacity projects, is eligible for this new funding source. Transportation Alternatives Program (TAP) funding was doubled, and a combined Nonmotorized / TPSG meeting will be held in April to allocate the remaining FY2025 and 2026 TAP and CRP funding.

Joseph presented an overview of the funding recommendations made at the TPSG meetings:

In 2023, funding was added to the City of Wyoming Gezon Pkwy project which will add an additional lane through the intersection for the improvement of traffic operations. Approximately \$300,000 in Flex-TMA funding was allocated to the City of Grand Rapids Robinson Rd project. With the EDC funding surplus being so minimal, it was recommended the funding be rolled into existing projects until there is enough to add a new project. This will be discussed at the April combined meeting. For CMAQ and CRP, the Committees recommended supplementing the reduced CMAQ with CRP funding. For 2025 and 2026, there is remaining CRP money that will be up for allocation discussion in April.

For FY2024-2026, the STP funding sources can be absorbed into existing projects to address overmatch. TPSG recommended moving the Argo Ave project to FY2025 and increasing the federal portion of the Crahen Valley project to \$1,474,985 to utilize the full amount of the FY2024 TAP allocation.

MOTION by Warren, SUPPORT by LaFave to approve the adjustments to the FY2023-2026 Draft Program of Projects as recommended by the TPSG and Technical Committees. MOTION CARRIED UNANIMOUSLY.

VI. OTHER BUSINESS

1. Airport Access Study Update

Referring to Item VI: Attachment A, Joseph informed the Committee that the first Technical Advisory Committee meeting for the Airport Access Study was held and noted that the slides from the meeting are included in the agenda packet for review. The Committee is nearing the end of the existing conditions analysis phase and is working on identifying purpose and needs statements and documenting alternatives. Public engagement will take place through a story map survey. Joseph asked the Committee to share the survey to ensure broad feedback from the region. The consultant will present an update at the combined Technical and Policy Committee meeting in July.

Warren stated that it would be helpful to have the history of this project presented at the meeting, as it dates back to the 80's and 90's. Ries noted that while this study is titled the Airport Access Study, this is really a community lead / community wide project with the airport capture area expanding beyond a 60-mile radius. This pulls many people in to Cascade Township through many of the other MPO communities. The study focuses on transportation through a broader lens, looking at what modes of transportation are needed, how people get to the airport, and how it can be improved upon. T. Kent, MDOT, noted that this is a great partnership.

Discussion ensued.

2. TDM Plan Update

Joseph stated that the kickoff meeting for the TDM Plan was held. The plan is in the early stages and focused on data collection and existing conditions. Stakeholder interviews will be held to make sure employers are involved in the process. Naramore and Schweitzer presented an update and comments on the plan. The plan will be aligned with the ITP Transit Master Plan.

3. FY2023 UPWP Overview

Joseph gave an update on the development of the FY2023 UPWP. The document will be brought to the committee for approval in May. The Airport Access Study and TDM plans will carry over in to the FY2023 work program. With new Federal and State Planning Emphasis Areas, one being a resiliency emphasis area, staff is considering an internal Transportation Resiliency Study. In addition, there is now a 2.5% set-aside for nonmotorized planning which will

need to be incorporated. Joseph asked the Committee if there were any additional work items they would like to see in the program.

Naramore discussed a 2013 / 2014 Downtown Circulation Study that identified the impacts of various interchanges on the downtown Grand Rapids area. Since completion, much development has occurred. It was suggested that this plan could be updated to study what impacts these developments have had since the last plan update in FY2023 or FY2024.

T. Kent gave an update on the MDOT US-131 PEL study. Virtual public meetings are being held. Comments from public meetings will be discussed and incorporated by the Advisory Committee.

MDOT Construction Updates: 96 at M-6 will be beginning soon. There will be potential closures at the 36th St. interchange potentially. Bonded projects between Zeeland and Hudsonville will take place over two construction seasons referring to the MDOT I-196 48th Avenue to 32nd Avenue project.

Warren proposed the creation of guidance or professional assistance related to upcoming projects and funding availability, eligibility, and application strategy. Would be helpful to have a better understanding of what funding is available for upcoming projects and how to apply for that project. Discussion ensued about how to go about this.

VII. ADJOURNMENT

Naramore adjourned the March 16, 2022 Policy Committee meeting at 10:25 a.m.

MEMORANDUM

DATE: May 11, 2022

TO: Policy Committee

FROM: Laurel Joseph, Director of Transportation Planning

RE: **FY2020-2023 Transportation Improvement Program**

On behalf of Georgetown Seniors, Hope Network, The Rapid, MDOT, Grand Rapids, and Kent County the following amendments/modifications to the FY2020-2023 TIP are being requested. Here are the specific requests:

- MDOT is requesting the amendments/modifications to the TIP project list in the attached pending projects summary. They are also requesting approval to increase the cost of a bridge replacement project in FY2022, the change for which will be programmed in JobNet this month. MDOT is also requesting committee review of the S/TIP exempt project list. MDOT staff may highlight a few of note during the meeting (please see attachments).
- The budget for Hope Network's FY2022 project increased, which has triggered a GPA threshold amendment for the FY2022 Transit Capital GPA (please see attachments).
- Georgetown Seniors was awarded a project in FY2022. Adding it has triggered a GPA threshold amendment for the FY2022 Transit Capital GPA (please see attachments).
- The Rapid has modified and added to their FY2022 projects based on final apportionments, which has contributed to the GPA threshold increase amendment for the FY2022 Transit Capital GPA (please see attachments).
- The City of Grand Rapids added a project to FY2023 as part of the development process for the FY2023-2026 TIP. Three of their FY2023 TAP projects (two that

had been approved in the last TIP development cycle and one that has been added this TIP development cycle) have also gone through the MGS process and thus could be programmed in JobNet. These additions have triggered a GPA threshold increase amendment in the FY2023 Local Livability and Sustainability GPA. Since FY2023 overlaps both TIPs, staff is requesting to amend it into the current TIP as well as include it as part of the action related to the FY2023-2026 TIP (please see attachment).

- Kent County Road Commission added a project to FY2023 as part of the development process for the FY2023-2026 TIP. They are also requesting to move a job from the 23-26 illustrative list into FY2023 to utilize STP-Flex funding they are in the process of purchasing from Montcalm County. Adding this project has triggered a GPA threshold increase amendment for the FY2023 Local Road GPA. Since FY2023 overlaps both TIPs, staff is requesting to amend it into the current TIP as well as include it as part of the action related to the FY2023-2026 TIP (please see attachments).

If you have any questions, please do not hesitate to contact me at (616) 776-7610.

FROM: Dennis Kent, Region Transportation Planner
 MDOT/Grand Region

SUBJECT: **FY 2020-2023 MDOT TIP Revisions**

MDOT is requesting pre-approval for the following Rebuilding Michigan Program (RBMP) TIP line-item project amendment, reflecting construction phase cost increases, not programmed in JobNet at this time. The increase is caused by, but not limited to, the following:

- Environmental mitigation, restrictions and challenges related to working in and around the Grand River
- Additional drilled shafts required to secure the pier foundations (6.5' x 120' at 25 locations),
- Labor and material shortages and delivery challenges causing price increases, statewide

These and related issues were discovered during the preliminary engineering phase. No additional capacity is being added with this cost change.

FY 2022 – Trunkline Project Change

FY	JN	Route	Location	Work Description	Phase	Total Cost Est. (\$000)	Change
22	210038	I-196	Over the Grand River and Market Avenue	Bridge Replacement	Const.	Up to \$100 Million	Cost increase

This change is in addition to the scope modification, already in the May MPO agenda package. MDOT is requesting authorization from the MPO Committees for MPO staff to approve this change once it is programmed in JobNet, so that the project can be obligated in FY 22, to prevent construction delays. Feel free to contact me at 616/451-3091 if you have any questions.

Thank you for your consideration.

Interurban Transit Partnership

300 Ellsworth Avenue SW Grand Rapids, MI 49503-4005 616.456.7514

April 26, 2022

Ms. Laurel Joseph
Grand Valley Metro Council
678 Front Ave, N.W., Suite 200
Grand Rapids MI 49504-5319

Dear Laurel,

The Rapid is requesting an amendment to the FY 2022 Transportation Improvement Program (TIP). Modifications are being made to the following projects.

Source	Project	Original Budget	Modified Request
5307	Replacement CNG Buses	\$3,410,909	\$2,054,416
5307	Facility Construction-Busch Operations Center	\$4,603,316	\$4,987,809
5307	Planning/Studies	\$495,000	\$795,000
5339	Facility Construction-Busch Operations Center	\$1,646,684	\$1,262,191

The Rapid is adding the following new projects to the FY 2022 TIP.

Source	Project	Requested Budget
5309	Laker Line Expanded Scope of Projects	\$5,090,000
5337	BRT Station Refurbishment	\$1,483,580
EGLE	Replacement CNG Buses	\$500,000

The attached list includes all FY 2022 projects referenced using the TIP scope code, the scope name, and the federal and total amount.

SP Code	Project	Source	Original Amount	Revised Federal Amount	Revised Total Amount
1102	30-34 ft Bus Replacement	5307	\$147,324	\$117,859	\$147,324
1104	40 ft and Greater Bus Replacement	5307	\$3,410,909	\$1,643,533	\$2,054,416
1201	Facility Construction (Busch Operations Center)	5307	\$4,603,316	\$3,990,247	\$4,987,809
1203	Admin/Maintenance Facility Improvements	5307	\$3,540,700	\$2,832,560	\$3,540,700
1302	Bus Shelter Improvements	5307	\$402,018	\$321,614	\$402,018
1401	Bus Equipment	5307	\$1,161,549	\$929,239	\$1,161,549

Laurel,

The KCRC additional 2023 project that was discussed at last week's Technical Committee meeting is from the 2023-2026 Illustrative list:

Project Location: 28th Street
Project limits: Kraft Avenue to Cascade Road
Project Length: 1.5 Miles
Project Type: Resurface
Estimated Cost: \$1,400,000
Federal Funds: \$1,100,000 STP Flex Funds (purchased from MCRC)
Local Match: \$ 300,000 (KCRC)

Thanks,

Wayne

External Sender

Hi Wayne,

Could you send me the info for the project you want to add to FY23 that you mentioned at Tech last week? I'd like to get it in JobNet to see if the change will be an amendment or (fingers crossed) administrative.

Thanks!

MEMORANDUM

DATE: May 11, 2022

TO: Policy Committee

FROM: Laurel Joseph, Director of Transportation Planning

RE: **FY2023-2026 Transportation Improvement Program**

On behalf of all jurisdictions with projects programmed in the FY2023-2026 TIP, staff is requesting the recommendation for approval of the FY2023-2026 Transportation Improvement Program (TIP) document by the Policy Committee in order to move forward with all necessary approvals by the Executive Committee, the Grand Valley Metro Council (GVMC) Board, the Michigan Department of Transportation (MDOT), the Federal Highway Administration (FHWA), and the Federal Transit Administration (FTA). The document is located on GVMC's website at www.gvmc.org/tip.

The process to develop this document began in summer 2021. Upon completion of the deficiencies analysis and call for projects, the Transportation Programming Study Group (TPSG) and Rural Subcommittees began meeting in November 2021 and began programming projects for the FY2023-2026 TIP. The result of that programming effort is reflected in the attached preliminarily approved FY2023-2026 TIP list of projects – which includes local, MDOT, and transit projects – as well as an Illustrative list of projects.

This list of preliminarily approved projects was used for consultation, public involvement, environmental justice review, and the air quality conformity analysis. The details of these processes and their outcomes are documented in the TIP document.

Based on work type and other guidelines, projects were either placed in a General Program Account (GPA) grouping (e.g. road resurfacing, bridge, transit capital, etc.) or included as an individual line item (e.g. reconstruction projects, major widening, etc.). The resulting 2023-2026 GPA thresholds are also included in this packet for review.

GVMC will take comments on the entire FY2023-2026 TIP document through June 2, 2022.

GVMC is the designated Metropolitan Planning Organization (MPO) for the Grand Rapids metro area and is responsible for the development of the TIP, which is required by both FTA and FHWA.

It is the finding by GVMC that the transportation planning process implemented to develop the Metropolitan Transportation Plan (MTP) and the TIP is certified in accordance with the requirements of US Code 23 CFR 450 and that the FY2023-2026 TIP is consistent with the Grand Rapids Area 2045 MTP and conforms to the State Implementation Plan (SIP) for air quality.

The current FY2020-2023 TIP remains in effect until the FY 2023-2026 TIP is approved by MDOT and the Governor, and has been found to conform to the SIP by FHWA and FTA.

If you have any questions, please feel free to email me at laurel.joseph@gvmc.org or call me at 776-7610.

MEMORANDUM

TO: Policy Committee

FROM: Laurel Joseph, Director of Transportation Planning

DATE: Wednesday, May 11, 2022

RE: Proposed FY2023 Unified Planning Work Program Activities and Budget

The FY2023 Unified Planning Work Program (UPWP) for the Grand Valley Metropolitan Council (GVMC) includes the budget for all federally assisted transportation planning activities that the GVMC Transportation Division, the Interurban Transit Partnership (ITP) and the Michigan Department of Transportation (MDOT) will undertake. GVMC must submit the UPWP annually to the sponsoring federal agencies, Federal Highway Administration and Federal Transit Administration, prior to October 1st. It functions as the coordinated budget for the Metropolitan Planning Organization (MPO). Staff is requesting Policy Committee review and action on the draft FY2023 UPWP, so that it can go before the Executive Committee on May 19th and to the GVMC Board for final action at their June 2nd meeting.

The draft FY2023 UPWP document and the associated budget to complete the included tasks is available for review on the GVMC UPWP webpage: www.gvmc.org/unified-planning-work-program. The work outlined in the program addresses all the federal planning factors, emphasis areas, and performance-based planning and programming requirements.

As mentioned at the last Policy Committee meeting, FHWA and FTA developed new planning emphasis areas (PEAs) this year that need to be addressed in MPO work programs. These include activities related to climate change, equity, complete streets, public involvement, coordination with the Department of Defense and Federal Land Management agencies, planning and environmental linkages, and transportation planning data. Many of these activities were easily incorporated into the standard work tasks GVMC staff undertake each year (if not previously addressed), but staff will also

perform a study related to transportation infrastructure resiliency as part of the effort to address these PEAs. Staff will also begin the process of updating the MTP and continue the work begun in FY2022 on the Airport Access Study, and the Regional Transportation Demand Management Plan. As is typical each year, staff will continue to maintain the TIP, provide technical assistance, collect pavement condition data, and run the regional traffic count and Clean Air Action programs. Staff will also continue to expand the nonmotorized count effort and safety educational campaign. GVMC will perform all these activities in coordination with our local, state, and federal partners.

The GVMC Transportation Program receives its local match through dues assessed to the participating member agencies. While dues have remained the same the last many years, the release of 2020 census data required population numbers to be updated for all jurisdictions. These updates have shifted population proportions, with some jurisdictions growing more than others, and as a result dues will be adjusted for FY2023 to reflect these changes. However, this year (as was done in previous years when dues remained the same though funding and programs expanded) GVMC will still assume an administrative match, taking responsibility for 30% of the local match required and assessing the other 70% through the dues formula (which includes factors related to population, federal aid lane miles and planning/operations match ratios according to anticipated resource needs). This means that while \$378,992 is required to match the federal funds in the FY2023 UPWP, GVMC will assume responsibility for \$113,698 of that amount. Below are the anticipated dues for FY2023. As has been the case in the past, it is our hope that the total amount of dues will not need to be adjusted again for several years.

MEMORANDUM

TO: Policy Committee

FROM: Laurel Joseph, Director of Transportation Planning

DATE: Wednesday, May 11, 2022

RE: FY2022 Unified Planning Work Program (UPWP) Amendment

ITP-The Rapid is requesting to amend the FY2022 UPWP to add budget and work activities for a Transit Technology Strategic Plan and a Fleet Transition Plan. These new projects will utilize FTA Section 5307 funds and state match.

Attached is a memo and summary from ITP. These proposed changes have been incorporated into the full FY2022 UPWP document, which is posted on the GVMC website in draft form for review at www.gvmc.org/unified-planning-work-program. Amended sections are highlighted in grey.

If the Policy Committee recommends approval of these amendments, the amended draft will go before the Executive Committee and GVMC Board for final approval.

If you have any questions, please feel free to email me at laurel.joseph@gvmc.org or call me at 776-7610.

March 23, 2022

Ms. Andrea Faber
Grand Valley Metro Council
687 Front Ave NW
Grand Rapids MI 49503

Dear Andrea,

Please find attached an amendment to the Unified Planning Work Program (UPWP) for Fiscal Year 2022. ITP is requesting to add Transit Technology Strategic Plan with a federal share of \$120,000 and a state share of \$30,000 and Fleet Transition Plan with a federal share of \$120,000 and a state share of \$30,000.

Please let me know if you have any questions or require additional information.

Sincerely,

Kevin Wisselink
Director- Procurement and Capital Planning

INTERURBAN TRANSIT PARTNERSHIP

UNIFIED PLANNING WORK PROGRAM
(UPWP)

TRANSIT PORTION

Fiscal Year 2022

**Proposed Amendment to the
FY 2022 Unified Planning Work Program Projects**

Description

Total Costs

Section 5307

Transit Technology Strategic Plan	\$150,000
Fleet Transition Plan	\$150,000
Total	\$300,000

Transit Technology Strategic Plan

Objective

The Rapid is looking to partner with a transit technology consultant to attain technical support on new customer facing technologies and Intelligent Transportation System (ITS) options and to assist in development of a long-range transit technology strategic plan, as well as developing the necessary materials for bid solicitation and support for implementation. Goals for this process are to identify new technology solutions that can improve operational efficiency, cost effectiveness, security, safety, marketing, and overall customer experience.

Areas of interest for this study and long-range technology plan include bus technology, bus platforms and terminals, websites, apps, and other methods of customer interaction that can help improve The Rapid's customer communication and experience.

Procedures and Tasks

- Conduct a study of new and existing technology solutions that enhance or improve services for The Rapid's public facing areas. These systems include passenger facing information systems, fare collection, bus signal priority technology and Advanced Driver Assistance Systems (ADAS).
- Conduct a peer review study to determine what systems other transit agencies are implementing and lessons learned from those agencies.
- Conduct stakeholder outreach to get feedback on technology solutions. Stakeholders include customers, the general public and Rapid staff. Outreach activities could include surveys, focus groups and public meetings.
- Study the transit technology industry to determine what options are currently available and how they could be applied to the Rapid.
- Develop a long-range technology and ITS proposed strategy for development of these systems.
- Develop specification and scope or work materials for these selected solutions.
- Create list of possible bidders for each selected project to be utilized by The Rapid in subsequent procurements.

Deliverables

- The development of a long-range customer facing technology plan and recommended solutions to The Rapid.

Budget:

<u>Funding Agency</u>		<u>Performing Agency</u>	
Federal	\$ 120,000	Contractual	\$ 125,000
MDOT-Match	<u>\$ 30,000</u>	Direct	<u>\$ 25,000</u>
Total	\$ 150,000	Total	\$ 150,000

Fleet Transition Plan

Objective

The objective is to develop a comprehensive Zero-Emission Bus (ZEB) Transition Plan that supports The Rapid's efforts to a long-term fleet management plan that include zero-emission buses. The Rapid will use technical assistance and expertise from a third-party consultant to build upon and enhance the existing Zero-Emissions Bus Transition Plan. Areas of study will include evaluation of current zero emission bus technology and how it would perform in The Rapid's environment, selection of what specific zero emission bus technologies are best suited to The Rapid, facility and workforce development needs, and what fueling/charging solutions The Rapid should use. Evaluation and research will provide Rapid staff strategies and detailed plans to improve decision making and practices for planning, implementing and operating ZEBs long term.

Procedures and Tasks

- Review The Rapid's existing Zero-Emission Bus Transition Plan and conditions of The Rapid's services.
- Conduct a peer review study to determine what systems other transit agencies are implementing and lessons learned from those agencies.
- Study the current state of Zero Emission Bus technologies and how they could be applied to the Rapid.
- Based on this research, select a ZEB mode(s) moving forward and the best fueling/charging methods for implementing this solution.
- Create a detailed implementation plan for The Rapid's transition to a ZEB fleet. This will include vehicle and fueling system specifications, workforce development needs, and any modifications that need to be made to existing facilities.
- Develop specification and scope or work materials for these selected solutions.
- Update The Rapid's Zero-Emission Bus Transition Plan based on the findings of this study.

Deliverables

- An updated Zero-Emission Bus Transition Plan, including detailed implementation strategies recommendations and support for long term succession of a transition to a zero-emissions Fleet.

Budget:

<u>Funding Agency</u>		<u>Performing Agency</u>	
Federal	\$ 120,000	ITP/The Rapid	
MDOT-Match	\$ 30,000	Contractual	\$ 125,000
Total	\$ 150,000	Direct	\$ 25,000
		Total	\$ 150,000
