MEMORANDUM

DATE: November 30, 2022

TO: Technical and Policy Committees

FROM: Laurel Joseph, Director of Transportation Planning

RE: **FY2023-2026 Transportation Improvement Program – Programming for FY2023 Updated Allocations and Unprogrammed HPCU Funds**

In late October, GVMC received updated funding allocations from MDOT for FY2023. In addition to solidifying the expected FY2023 revenue, MPOs were given the authority to program and spend a portion of our carryover funds as MDOT's way of paying back the local program for spending more than 75% of the FY2022 August redistribution funding. In all, an additional \$2.5 million in funding needs to be programmed.

In order to ensure we are able to program and obligate all the funding this fiscal year without causing significant delays to project delivery, the TPSG Subcommittee met on 11/21 to develop programming recommendations and the Technical and Policy Committees agreed to meet, review, and take action on these recommendations at a combined December Committee meeting.

Attached to this memo is a spreadsheet showing the recommended adjustments to funding levels for FY2023 projects aligning with the general recommendation from TPSG to absorb the funding into projects that are currently programmed to get everyone as close to maxed out for federal funding as possible. Most, if not all, of these changes will be able to be processed as administrative adjustments if approved by Committees, but staff will submit a TIP amendment package to MDOT/FHWA/FTA if necessary.

Additionally up for consideration was \$199,500 in HIP-COVID relief funding that needs to be obligated prior to the end of FY2024. TPSG has recommended that this funding be allocated to a FY2024 KCRC bridge project that includes bridge preventative maintenance work on three bridges: Rogue River Drive over the Rogue River, Packer Drive over the Rogue River, and Packer Drive over the White Pine Trail. This job was

previously abandoned by MDOT to be funded with local funds, but if Committees approve this recommendation, staff will coordinate with MDOT to get it reprogrammed.
