

## **Chapter VI Project Listings**

This section lists all federal, state and locally funded projects planned for fiscal years 2004 through 2006 in the Grand Rapids Metropolitan Area. This list identifies all multi-modal transportation investments in the metropolitan area, including transit, highway and bicycle projects. The projects are listed by year, funding program and then by jurisdiction. Following the project listings section are three maps (one map per fiscal year) with local and MDOT projects geographically placed on the map within the MPO area. Being that the Transit projects are capital improvement type projects they were not graphically illustrated. A list of acronyms for funding categories is available in the appendix.

This three year program is updated every two years as required by TEA-21 and can be amended by majority vote from the GVMC TIP, Technical and Policy Committees.

Following the mapped portion of the project listings section is a list of projects that were nominated to receive funding through either STP Urban or EDF-C that was not programmed because there was a lack of funding resources to program the projects in this current TIP. These projects will remain on these lists until: 1.) more funding becomes available in a particular year, 2.) if a currently programmed project drops completely out of the TIP, 3.) the development of the next TIP (FY2006 – 2008) where these projects could be programmed, or 4.) if the maintenance jurisdiction chooses to build the project with local funds.
